## **Book Page Wreath (Center Rose Instructions on Back)**

1. Roll about 50 book pages into tubes.
2. This is perfect to do in front of the tv or while listening to an audiobook.  
Grasp the two corners of the long edge. The bottom should be thumb up but the right hand side should be thumb down. Hold the bottom of the tube as you start to twist to make a tube. Keep twisting with your right hand into a tube. But your thumb into the top of the tube and twist until the tube is tight. Tape Tube tight.

Your first ones will probably start loose but persevere! They'll get Better quickly! Fifty tubes later, you're ready to go!

## Assembly

Set your glue gun on a stable surface with a piece of paper below To catch drips.

1. Flatted bottom of tubes and glue them in a circle, leaving space between each tube.

2. Once down the first layer of tubes, do another layer, filling in the open areas.

3. Careful not to burn your fingers - hold the end of a pencil to push the tubes flat to make glue adhere.

4. After you've down two layers, snip the bottom of the next round Of tubes about an inch. Glue another round.

5. Continue the rounds, with another layer, snipped smaller until All you have left is room for your rose for the center.
